
 **Bulk Tanker Day**
 **Tuesday, 11 May 2021**

Agenda

- **NTC project update** (Review of the legal framework to improve land transport of dangerous goods)
 - **Endorsed Scope (recommendations)**
- **Implementation roadmap**
- **ADG Code edition 7.8 – key dates**
- **Questions**

Key Review Recommendations

Recommendation 1

The **current model law approach should be retained**, with a detailed action plan put in place to improve implementation, governance and administrative arrangements.

Recommendation 2

Implement a **process** that ensures **greater involvement of the ministerial portfolios** that are responsible for administering agencies in the agreement of proposed amendments before they are progressed to the Infrastructure and Transport Ministers Meeting for endorsement.

Recommendation 3

Implement the detailed six-goal action plan

Recommendation 4

Conduct a **full review of the Australian Dangerous Goods Code** to update outdated chapters, identify and correct translation errors, incorporate relevant ADR concepts and incorporate requirements for Class 1 and Division 6.2

Recommendation 5

Develop a **training matrix** based on a training needs analysis, including discrete, task-specific training and explore the potential for a dangerous goods specialist advisory competency.

6 Goal action plan

Goal	Action
Goal 1	Improve consistency of amendment implementation dates
Goal 2	Improve the ability of stakeholders to identify corresponding requirements across jurisdictions
Goal 3	Improve the responsiveness, accountability and transparency of Competent Authorities Panel (CAP) decisions
Goal 4	Maintain a national register of stakeholders to ensure all stakeholders are engaged during amendment discussions
Goal 5	Establish a common understanding and interpretation of requirements
Goal 6	Provide greater involvement of relevant portfolios in endorsing amendments and jurisdictional variations

Recommendation 4

Full review of the ADG Code

Scope of the review

- identify and correct translation errors
- update outdated chapters
- incorporate relevant ADR/RID concepts
- incorporate requirements for Class 1 and Division 6.2

Examining the legal framework for the land transport of dangerous goods (Recommendations and 6 goal action plan)

ADG code - UN model comparison

Non policy matters and general errors

ADG code maintenance

Substantial Australian and
land mode differences

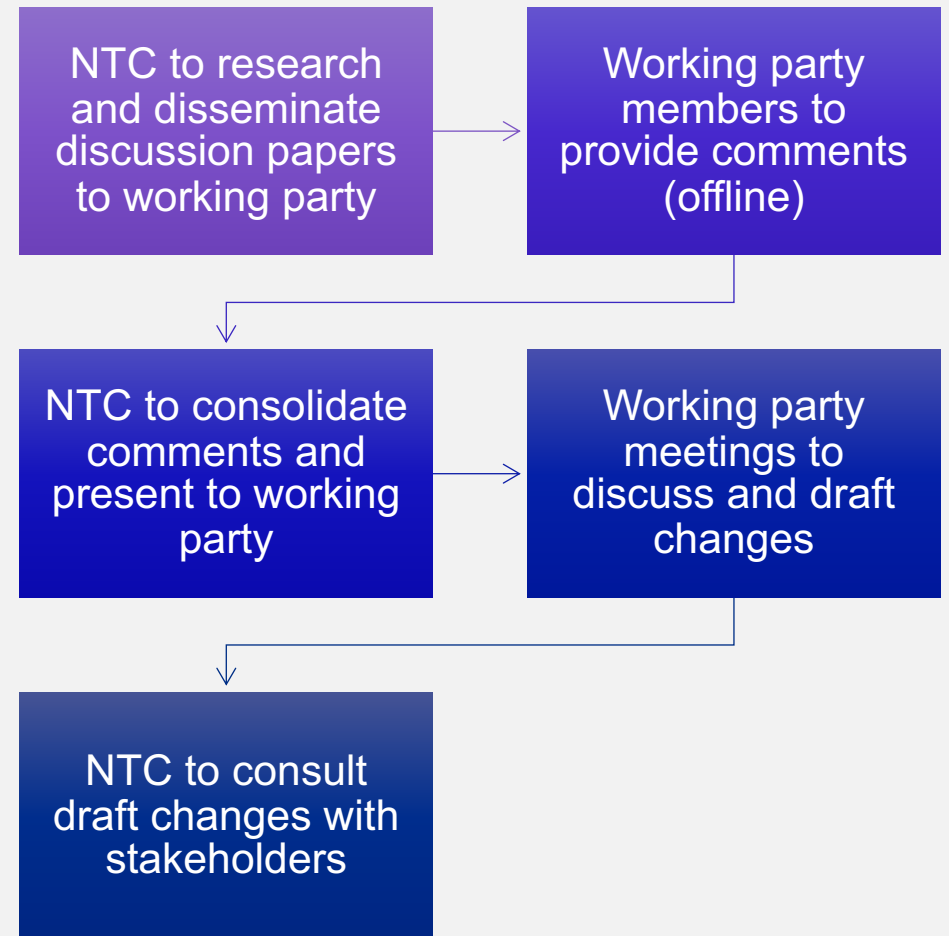

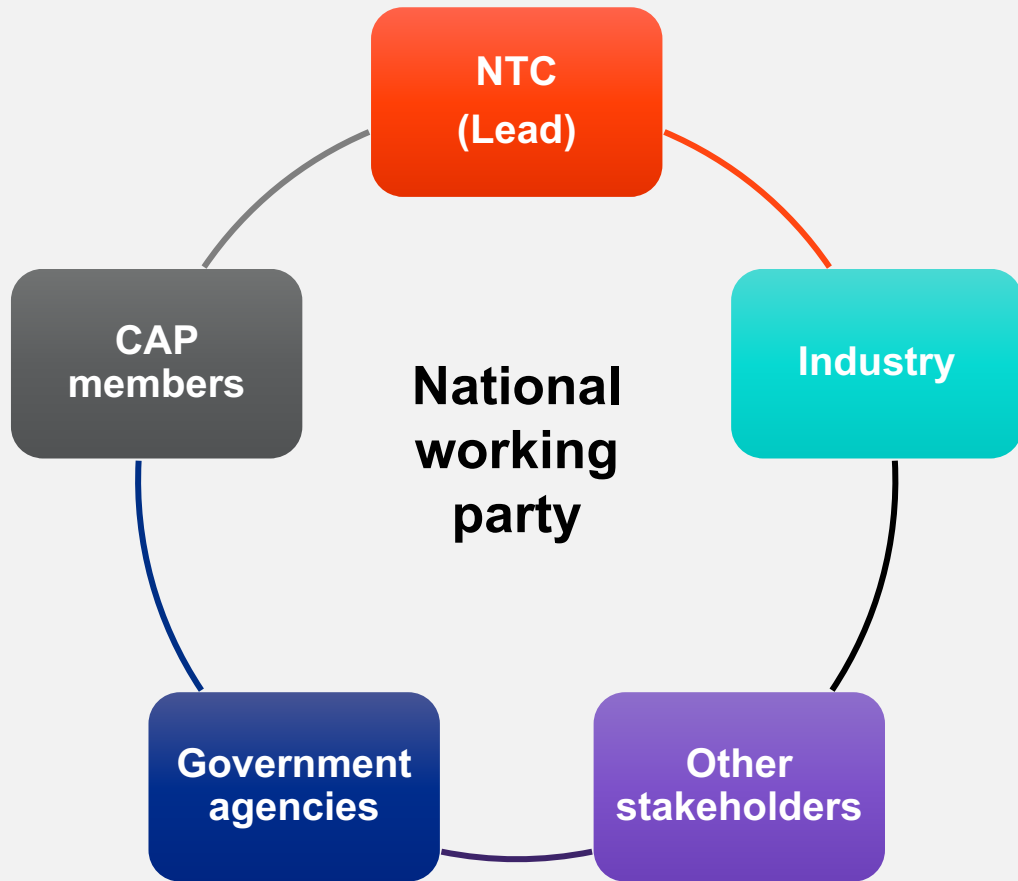

ADG code review

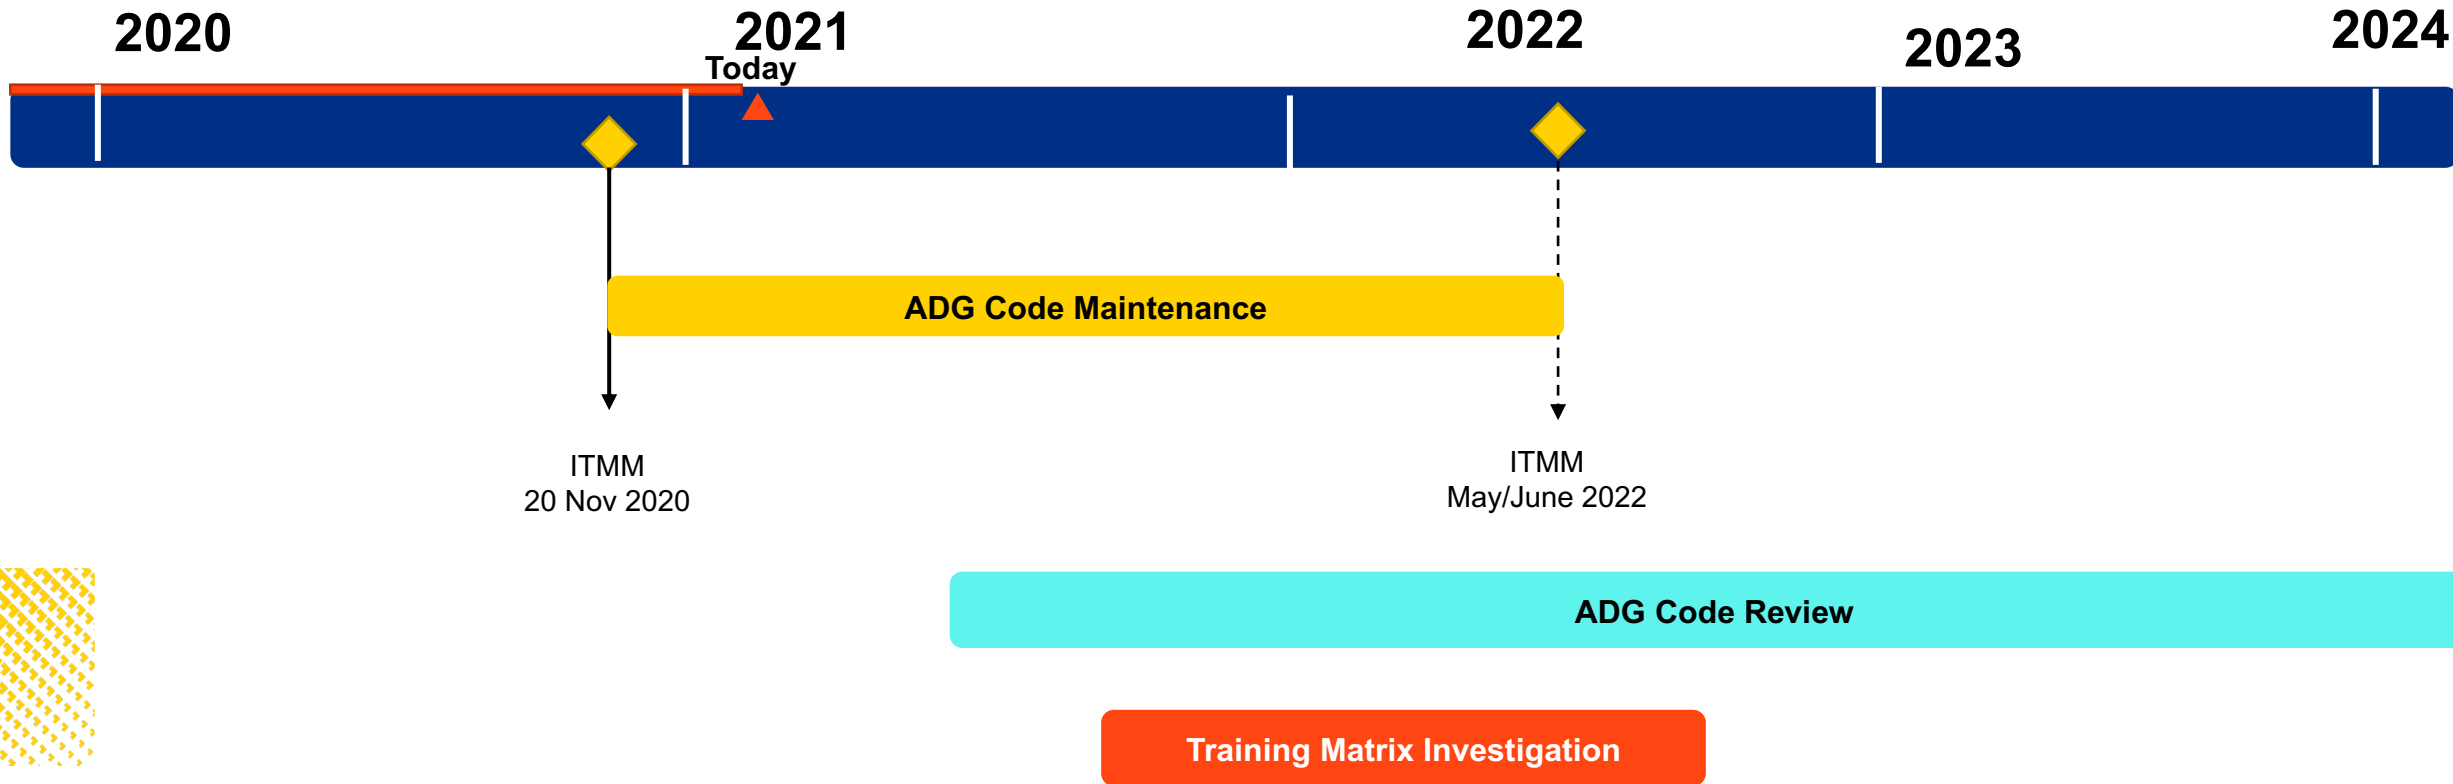

Training Matrix investigation

ADG code review: approach and process

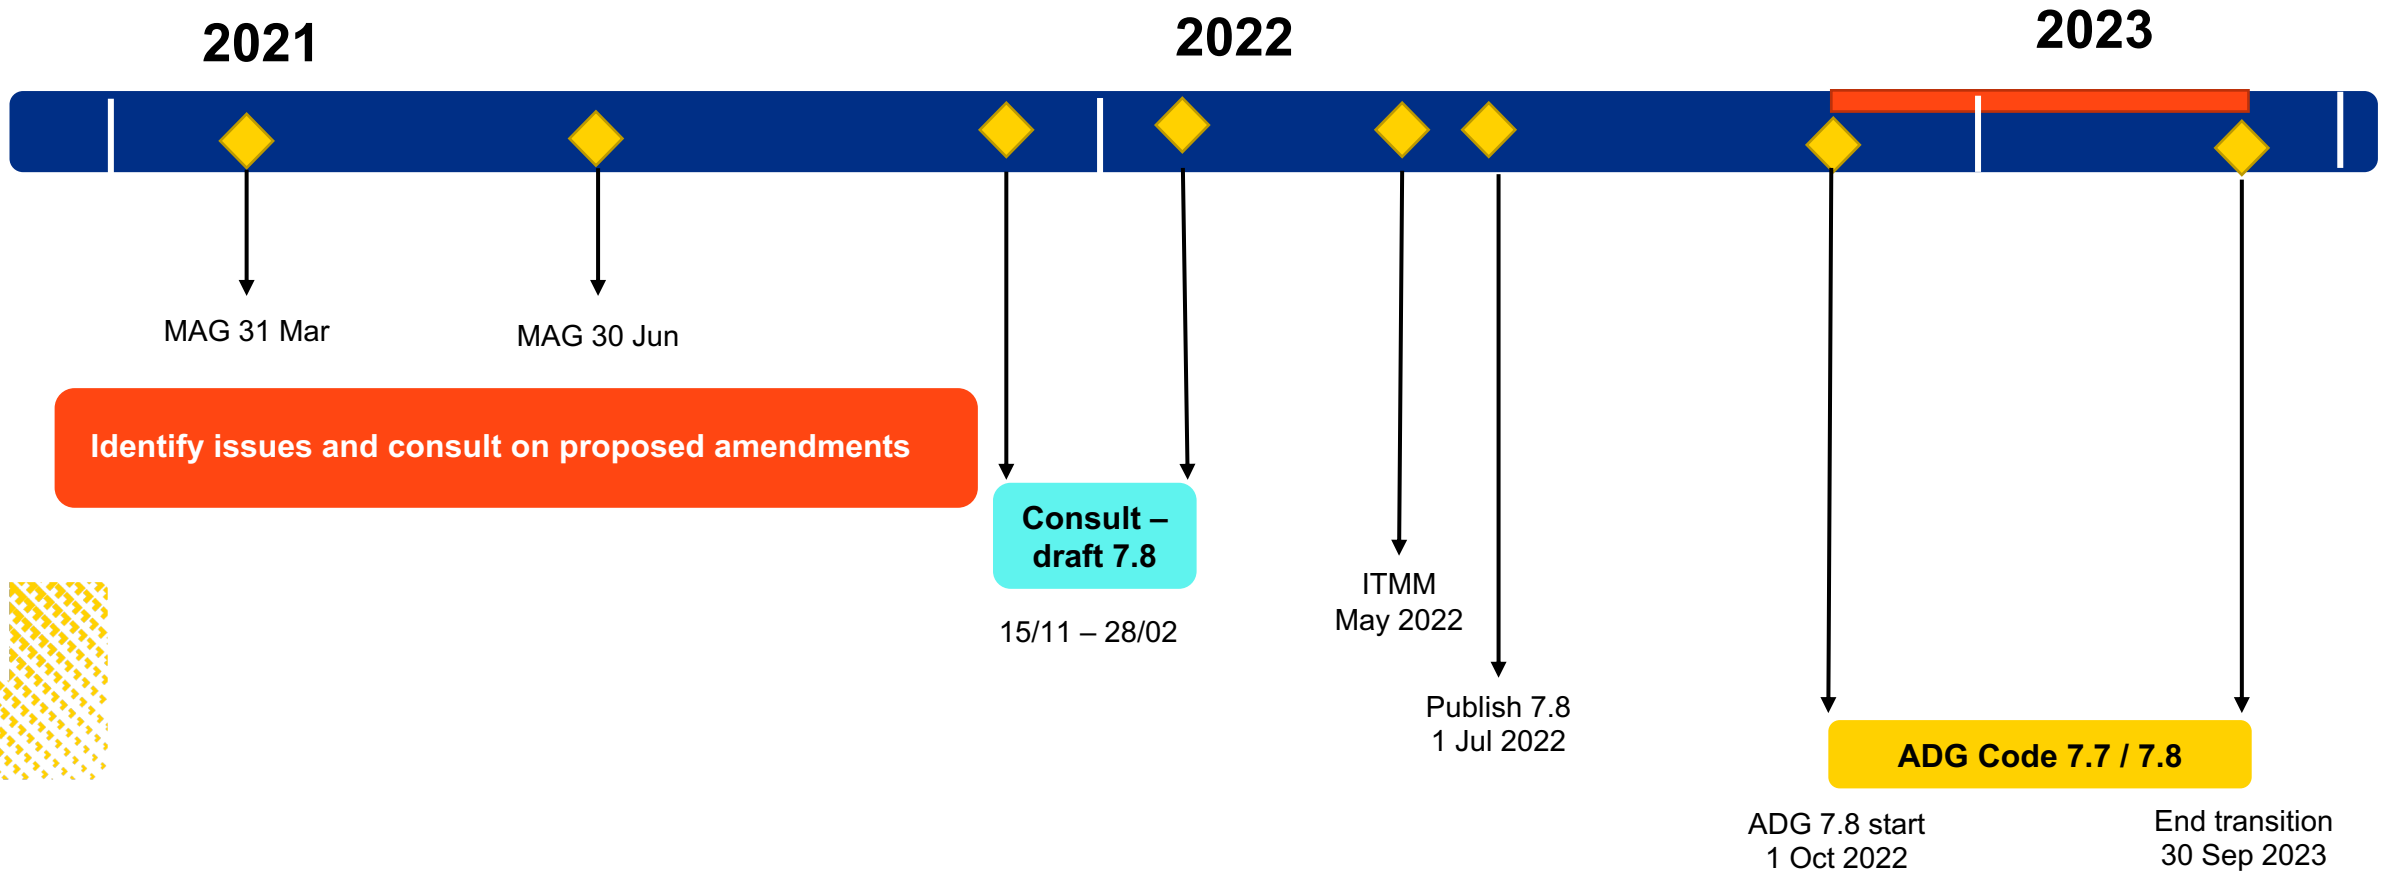

Where are we at in the process?

ADG Code review – key dates

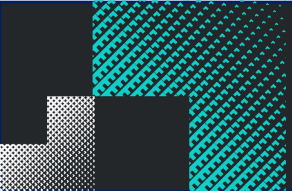

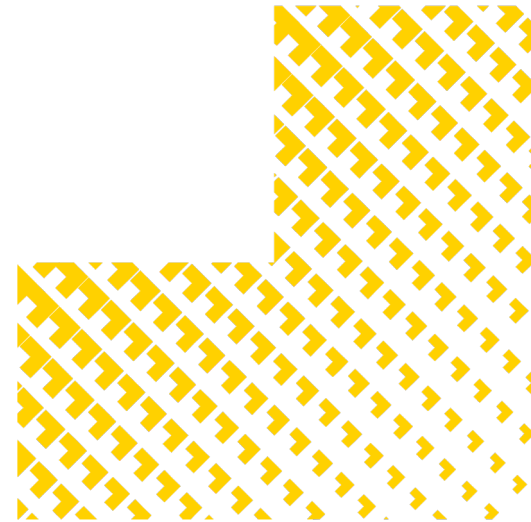

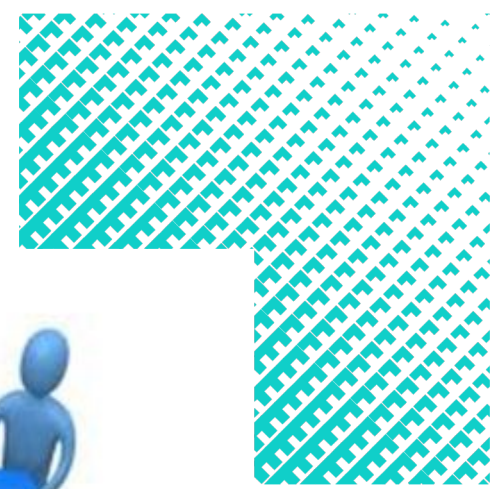

Deliverable	Completion Date
Background and research packages compiled and grouped by subject	1/10/2021
Full working group meeting 1 – agree subject specific working groups and guiding principles	19/11/2021
Full working group meeting 2	20/05/2022
Full working group meeting 3	17/11/2022
Full working group meeting 4	18/05/2023
Full working group meeting 5	20/11/2023
Subject specific working group meetings	TBA
Draft Code for working groups	1/04/2024
Draft Code for public consultation	15/05/2024
Proposed Code for approval	15/08/2024
ITMM	Nov 2024
Publish Code and MSI	15/12/2024
